

KWARA STATE MINISTRY OF BUDGET AND PLANNING

**BUDGET CLASSIFICATION AND CHART
OF ACCOUNTS FOR LOCAL
GOVERNMENTS IN KWARA STATE,
USERS' MANUAL**

FEB 2025

FOREWORD

The adoption of a standardized Budget Classification and Chart of Accounts (CoA) is a critical component of public financial management reform and a prerequisite for enhancing transparency, accountability, efficiency, and fiscal discipline in Local Government administration. The Kwara State Government remains committed to strengthening governance systems and ensuring that public resources are planned, managed, and reported in accordance with national and international standards.

This Users' Manual has been developed to provide practical guidance to Local Government Councils, Area Offices, Departments, Units, and other stakeholders on the application of the Budget Classification and Chart of Accounts framework in Kwara State. The Manual aligns with the National Chart of Accounts (NCoA), the International Public Sector Accounting Standards (IPSAS), the Fiscal Responsibility Framework, and other relevant public financial management reforms adopted by the Federal Government of Nigeria and Kwara State.

The Manual is intended to promote consistency in budgeting, accounting, financial reporting, expenditure control, and performance management across all sixteen (16) Local Government Councils in the State. By utilizing a uniform coding structure, Local Governments will be able to improve budget preparation, facilitate expenditure tracking, strengthen monitoring and evaluation, and generate reliable financial information for decision-making.

The Budget Classification and Chart of Accounts framework provides a systematic method for classifying revenues, expenditures, assets, liabilities, programmes, projects, and geographical locations. It also supports the integration of planning and budgeting processes and enables better analysis of government spending and service delivery outcomes.

All Local Government Chairmen, Heads of Departments, Directors of Finance and Supply, Directors of Personnel Management, Budget Officers, Internal Auditors, Accountants, and other relevant officials are encouraged to familiarize themselves with the contents of this Manual and ensure its effective implementation.

The successful adoption of this framework will contribute significantly to improved financial governance, enhanced accountability, and sustainable development across the Local Government system in Kwara State.

Dr. Hauwa Nuru
Honourable Commissioner for Finance
Kwara State

1.0 INTRODUCTION

The Budget Classification and Chart of Accounts (CoA) provides the foundation for planning, budgeting, accounting, financial reporting, expenditure management, and performance monitoring within Local Government Councils.

The Chart of Accounts is a structured coding framework that enables the classification and recording of financial transactions in a consistent and transparent manner. It serves as a common language for budgeting, accounting, reporting, and fiscal analysis across all Local Government Councils in Kwara State.

The adoption of a standardized Chart of Accounts is intended to:

- Improve budget credibility and expenditure control.
- Strengthen financial accountability and transparency.
- Enhance compliance with IPSAS and National Chart of Accounts requirements.
- Facilitate monitoring and evaluation of government programmes and projects.
- Improve the quality and reliability of financial reports.
- Support evidence-based decision-making.
- Promote comparability of financial information across Local Government Councils.

2.0 OBJECTIVES OF THE USERS' MANUAL

The objectives of this Manual are to:

1. Provide guidance on the structure and application of the Budget Classification and Chart of Accounts.
2. Promote uniform budgeting and accounting practices across Local Government Councils.
3. Strengthen financial reporting and expenditure tracking.
4. Support compliance with statutory and regulatory requirements.
5. Improve understanding of coding structures used in budget preparation and financial management.
6. Facilitate the implementation of IPSAS and National Chart of Accounts reforms at the Local Government level.

3.0 STRUCTURE OF THE CHART OF ACCOUNTS

The Kwara State Local Government Chart of Accounts is structured in line with the National Chart of Accounts (NCoA), International Public Sector Accounting Standards (IPSAS), Government Finance Statistics (GFS), and Public Financial Management (PFM) reform requirements. The combination of the six segments provides a comprehensive coding framework for budgeting, accounting, financial reporting, expenditure tracking, monitoring, and performance management across all Local Government Councils in Kwara State.

The Kwara State Local Government Chart of Accounts is based on the National Chart of Accounts and consists of the following segments:

2.1 Administrative Classification (12 Digits)

The Administrative Classification identifies the Ministry, Department, Agency, or Local Government unit responsible for generating revenue or incurring expenditure. It provides a basis for assigning accountability and tracking the use of public resources across government institutions.

At the Local Government level, the classification covers key departments such as Administration, Finance, Works, Agriculture, Health, Education, Water, and Community Development, as well as their respective divisions and units.

The Administrative Segment consists of **twelve (12) digits** structured into **five hierarchical levels**, enabling the identification of the specific institution, department, division, unit, and cost centre responsible for managing public funds.

The structure, components, and coding levels of the Administrative Segment are presented in Table 2.2 below.

FUNCTION SEGMENT

The Administrative Classification provides a framework for identifying the Ministries, Departments, Agencies (MDAs), and Local Government Councils responsible for the collection of revenue and execution of public expenditure in Cross River State. It promotes accountability by clearly assigning responsibility for budget implementation and financial management to specific government institutions and operational units.

The Administrative Segment consists of twelve (12) digits structured across five (5) levels. These levels are designed to capture the hierarchy of government institutions, from the State and Local Government level down to departments, units, and operational sections responsible for managing public resources.

Table 2 below presents the structure of the Administrative Segment, including its levels, components, digit allocation, and descriptions.
